Methods of Assessment of Learning Outcomes

The cognitive, effective and psychomotor domains are evaluated by team direct observation and structure evaluation with checklists.

For the Attainment of outcomes and course outcomes are evaluated by means of direct and indirect assessment. Direct assessment includes unit test, two internal assessment, examination and at the end of the course one university examination For Failed students remedial measures are scheduled immediately after internal examinations. Followed by final university theory and practical examinations.

Apart from this assignment seminar, practice teaching group discussion, the research critics, journal club presentation, projects, individual research projects , daily attendance at department the intern is posted, log books, completion are also included for the evaluation in practical, students are assessed with checklist for each nursing skill, nursing audit, case study, clinical presentation and weekly practical examinations.

Indirect methods, student satisfactory survey, feedback are obtained analyzed and required. Measures are suggested.
