MEASLES RUBELLA VACCINATION CAMPAIGN

Venue: OPD Dr.V.V.P.F's Memorial Hospital Ahmednagar

Date: 27/11/2018

Ministry of Health and Family Welfare
Government of India

We can beat two diseases with one vaccine

Make sure that all children from the age of 9 months to 15 years get MR vaccine

MEASLES is a deadly disease, can lead to:

- Pneumonia
- Diarrhoea
- Other life threatening complications

RUBELLA infection during pregnancy can lead to children born with congenital birth defects, as:

- Blindness
- Deafness
- Mental retardation
- Congenital heart defects

Following the MR vaccination campaign, MR vaccine will replace measles vaccine in the Universal Immunization Programme (UIP)
To know more, contact your ANM, ASHA or Anganwadi worker
