Best Practices

A] Earn while you Learn Scheme

- Objectives:**
- i. To provide financial assistance to economically backward and needy students.
 - ii. To teach them Clinical, Professional, library, and financial management.
 - iii. To make students develop a multidimensional personality.
 - iv. To motivate students for self-employment.
 - v. To promote the dignity of labor and social commitment among the students.
 - vi. To increase access to higher education for students from economically weaker society sections.
 - vii. To financially support all deserving poor students without discrimination of caste, creed, or gender.
 - viii. To help the students develop and teach work ethics, self-discipline, and confidence building.

The vision of our Founder, the late Dr. Hon. Dr. Eknathrao alias Balasaheb Vikhe Patil Padmabhushan Awardee (10 April 1932 - 30 December 2016), was Social Transformation through Education, with this realization; he adopted a strategy to raise awareness among the small peasants and the rural poor, through the spread of technical and non-technical education. This scheme benefits students from rural areas, which are economically backward, intelligent, and worthy but cannot afford higher education. The scheme is addressed in a planned manner. It thus provides financial assistance to economically backward and needy students and motivates them for self-employment, to develop multidimensional personality and confidence building. Even though rural students get admission to various courses at the University, they cannot afford accommodation, payment of fees, boarding, and related facilities. This scheme was formulated as a solution to all these problems and is a revolutionary step.

Another scheme introduced by the management is open to all students who have been admitted to our institution. Our parent hospital allows them to work in clinical after academic hours, i.e., from 6.00 PM to 12.00 AM and pays about 13,000-16,000 / month. The students are posted in different clinical areas like Medical wards, surgical wards, Paediatric wards, ICUs, OTs, and Casualty without affecting their academics.
