From the Principal Desk

*It is not in the stars to hold our destiny but in ourselves – William Shakespeare*

I am fortunate to work with such dedicated, innovative, caring staff members, parents, and students. Each day is an adventure filled with new experiences, learning for all, and a chance to constantly widen our horizons. It always gives me great pleasure to see the sea of smiling faces of students. At Dr. V.V.P.F.'s College of Nursing, the growth of each student is our focus. We recognize that as we 'work together and learn together,' students will be best able to achieve their potential. We firmly believe that every student can experience success and graduate as a responsible, resilient, and confident young adult, well prepared to take charge of their future and become productive community members.

Our curriculum and practices are consistently reviewed to ensure that we are following the most updated best rules, meeting all regulations, and addressing the future needs of our students. The education system has become so dynamic that it is no longer enough to connect the dots; we need to think out of the box and beyond a pattern.

Many of our students are involved in various extracurricular activities that allow them to grow at their own pace in a safe, nurturing environment. Our list of activities and other extracurricular offerings is broadened each year with the hope of having something that interests every student.

We are also proud of our one M.Sc.Nursing topper in M.U.H.S. (Nashik). At the same time, we are proud of our Alumni who have received appointments in government sectors and are pursuing Higher education. The students are encouraged to participate in all the internal and external events and are given enough guidance and practice before being exposed to the competitions.

Our students, when they graduate, will be well equipped with the skills, mindsets, and qualities that will best enable them to strive for success in the world of the future. Our students are intelligent, resilient, creative, imaginative, disciplined, respectful, and ethical and would remain dedicated to life-long learning. With the nurturing they get from College, they will become future leaders and societal role models.

### Best Practices

#### **A] Earn while you Learn Scheme**

- Objectives:**
- i. To provide financial assistance to economically backward and needy students.
  - ii. To teach them Clinical, Professional, library, and financial management.
  - iii. To make students develop a multidimensional personality.
  - iv. To motivate students for self-employment.
  - v. To promote the dignity of labor and social commitment among the students.
  - vi. To increase access to higher education for students from economically weaker society sections.
  - vii. To support all deserving poor students financially without any discrimination of caste, creed, or gender.
  - viii. To help the students develop and teach work ethics, self-discipline, and confidence building.

*The vision of our Founder, the late Dr. Hon. Dr. Eknathrao alias Balasaheb Vikhe Patil Padmabhushan Awardee (10 April 1932 - 30 December 2016), was Social Transformation through Education, with this realization; he adopted a strategy to raise awareness among the small peasants and the rural poor, through the spread of technical and non-technical education. This scheme is undertaken to benefit students from rural areas, which are economically backward, intelligent, and worthy but cannot afford higher education. The scheme is addressed in a planned manner. It thus provides financial assistance to economically backward and needy students and motivates them for self-employment, developing multidimensional personalities, and building confidence. Even though rural students get admission to various courses at the University, they need help to afford accommodation, payment of fees, boarding, and related facilities. This scheme was formulated as a solution to all these problems and is a revolutionary step in that direction.*

Another scheme introduced by the management is open to all students who have been admitted to our institution. Our parent hospital provides an opportunity for them to work in clinical after academic hours, i.e., from 6.00 pm to 12.00 am, and pays about 13,000-16,000 / month. The students are posted in different clinical areas like ICUs, OTs, Casualty, Medical wards, Surgical wards, and Pediatric wards without affecting their academics.

### **Alumini**

**Alumni are effective role models and can be easily accepted by students. As alumni return in support of the college, they bring credibility and ownership as part of a successful institute, breathe the same air and face the same challenges that students face. Students can easily accept the experiences shared with alumni as guidance and inspiration in time management, financial management, self-discipline, and character development or career management. In this way, alumni can help build trust, improve motivation, and develop the right culture that the college wants to convey to students.**
