Principal's Message

Professor Chanu Bhattacharya,
Professor cum Principal,
M.Sc. Nursing,

Dear all,

In these difficult and anxious times, I would like to reach out to you through these few lines. COVID-19, with its sudden upheavals, has changed our routines and lifestyles. Moreover, each one of us and the entire world is affected by the coronavirus pandemic. This pandemic has accelerated existential issues like acute individual loneliness in the wake of lockdowns and quarantine or isolation, disturbances of social life, and contaminating the interpersonal space with distrust of each other; in short, our entire way of life is adversely affected by the scare of COVID-19 and has created a new psychological situation for people, above all the anxiety aggravated by fear of death.

We understand the challenges the Students, Parents, and teachers face to cater to the academic needs during the lockdown and to adapt to virtual learning. However, the importance of education remains consistent. We must be prepared to take life ahead with all our regular activities according to the new normal. Though disturbed, we don't want to miss this academic year for our students. Our talented and dedicated staff, both teaching and non-teaching, have been showing their care and concern for the students working from home, preparing notes, and engaging classes online for the benefit of students. I appreciate their concern for the students and commitment to academics. The college is encouraging peer learning by forming WhatsApp groups with their teachers and a virtual platform. All these will also lead to the imbibing of digital skills, one of the most essential literacy skills of the 21st century. We would like to mention the challenge accepted by the staff to conduct university exams in the midst of this pandemic.

We believe that this is the time to not just deal with the current emergency but also build foundations of resilience to face such difficult events in the future. Let us consider this challenge as an opportunity. The COVID-19 Pandemic should not lock down the aspiration of our young generation. Youtube videos and other free online courses and forums can help students learn a lot of skills and knowledge.

An optimistic and positive outlook enables you to see good things in life and keep going even in the hardest times. All of us have been practicing social distancing, physical distancing, and coming together on social media for mutual morale-boosting conversations and sharing. We pray for quick control of the COVID-19 Pandemic and for the healing of those affected, their families, and healthcare personnel. Remember, humanity has seen worse, and every time we have bounced back. We will, again. Being hopeful is the key.

Take care. Stay safe.

Best Practices

List of No. of Students Benefited

A] Earn while you Learn Scheme

1. Objectives:

- I. To provide financial assistance to economically backward and needy students.
- II. To make them learn Clinical, Professional, library, and financial management.
- III. To make students develop a multidimensional personality.
- IV. To motivate students for self-employment.
- V. To promote the dignity of labor and social commitment among the students
- VI. To increase access to higher education for students coming from economically weaker sections of society.
- VII. To support all deserving poor students financially without any discrimination of caste, creed, or gender.
- VIII. To help the students develop and inculcate work ethics, self-discipline, and confidence building.

The vision of our Founder, the late Dr. Hon. Dr. Eknathrao alias Balasaheb Vikhe Patil Padmabhushan Awardee (10 April 1932 - 30 December 2016), was Social Transformation through Education, with this realization; he adopted a strategy to raise awareness among the small peasants and the rural poor, through the spread of technical and non-technical education. This scheme is undertaken for the benefit of students coming from rural areas, which are economically backward, intelligent, and meritorious but cannot afford higher education. The scheme is addressed in a planned manner. It thus provides financial assistance to economically backward and needy students and motivates them for self-employment, to develop multidimensional personality and confidence building. Even though rural students get admission to various courses at the University, they cannot afford accommodation, payment of fees, boarding, and related facilities. This scheme was formulated as a solution to all these problems and is a revolutionary step in that direction.

Another scheme introduced by the management is open to all students who have been admitted to our institution. Our parent hospital provides an opportunity for them to work in clinical after academic hours, i.e., from 6.00 pm to 12.00 am, and pays about 13,000-16,000 / month. The students are posted in different clinical areas like Medical wards, surgical wards, Paediatric wards, ICUs, OTs, and Casualty without affecting their academics.
