

First P.B.B.Sc. Nursing Examination, Winter - 2022
MATERNAL NURSING

Total Duration : 3 Hours

Total Marks : 75

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion** of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All** questions are **compulsory**.
 - 4) The number to the **right** indicates **full** marks.
 - 5) Draw diagrams **wherever** necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answer book for all sections.

SECTION - "A" (40 Marks)

1. Short answer question (any five out of six) : [5 × 5 = 25]
- a) Daily fetal movement count.
 - b) Difference between placenta previa and abruption placenta.
 - c) Causes of onset of labour.
 - d) Management of pregnancy with heart disease.
 - e) Gynecoid pelvis.
 - f) Causes of IUGR.

61306

2. Long answer questions (any one out of two) : [1 × 15 = 15]
- Write concept of puerperium. Discuss involution of uterus. Explain the management of a mother for first 24 hrs. who has delivered vaginally with episiotomy.
 - Define multiple pregnancy and its types. Explain clinical diagnosis of twin pregnancy. Write the management of twin pregnancy.

SECTION - "B" (35 Marks)

3. Short answer question (any four out of five) : [4 × 5 = 20]
- Skin changes during pregnancy.
 - Asphyxia Neonatorum.
 - Medical termination of pregnancy.
 - Threatened abortion.
 - Effect of diabetes mellitus on fetus.
4. Long answer question (any one out of two) : [1 × 15 = 15]
- Enumerate the indications of cesarean section. Explain types of cesarean section. Describe pre and post operative nursing management of a mother undergoing lower segment cesarean section
 - What is normal labor. Enumerate the stages of labour. Describe the management of second stage of labour.

First P.B.B.Sc. (Nursing) Examination, Phase - II Summer - 2022
Maternal Nursing

Total Duration : 3 Hours

Total Marks : 75

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper.** If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All questions are compulsory.**
 - 4) The number to the **right** indicates **full marks.**
 - 5) Draw diagrams **wherever** necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answerbook for all sections.

SECTION - A (40 Marks)

- 1. Short Answer Questions (Solve any 5 Out of 6) :** [5 × 5 = 25]
- a) Incentives for family planning
 - b) Nursing care of patient with puerperal pyrexia
 - c) Characteristics of IUGR newborn
 - d) Injection oxytocin and role of nurse
 - e) Essential newborn care
 - f) Complications of anaemia in pregnancy

- 2. Long Answer Questions (Solve any 1 Out of 2) :** [1 × 15 = 15]

- a) Mrs Varsha 32 years primigravida with 30 weeks of gestation is admitted to labour ward with history of episode of fit at home. On examination she is diagnosed as a case of eclampsia and is not in labour.

Write the initial nursing assessment of Mrs Varsha. Explain in detail the general, obstetric and nursing management of Mrs Varsha.

- b) List the various birth injuries likely to occur to mother and newborn during labour. Explain the role of nurse midwife in prevention of birth injuries to both mother and newborn.

SECTION - B (35 Marks)

3. Short Answer Questions (Solve any 4 Out of 5) : [4 × 5 = 20]

- a) Role of nurse in breast engorgement
 b) Ovarian hormones and its functions
 c) First aid in atonic PPH
 d) NST and role of nurse
 e) Physiology of lactation after delivery

4. Long Answer Question (Solve any 1 Out of 2) : [1 × 15 = 15]

- a) Write the factors responsible for increasing rate of caesarean section. Write the pre-operative nursing management of Mrs. Rekha 26 years primigravida undergoing emergency caesarean section.
- b) Explain the various causes for abortion. Write in detail the management of woman with threatened abortion with specific emphasis on health education.

First P.B. B.Sc. Nursing Examination, (Phase - III) Winter - 2021
MATERNAL NURSING

Total Duration : 3 Hours

Total Marks : 75

- Instructions :**
- 1) Use blue/black ball point pen only.
 - 2) Do not write anything on the **blank portion of the question paper.** If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All questions are compulsory.**
 - 4) The number to the **right indicates full marks.**
 - 5) Draw diagrams **wherever necessary,**
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answer book for all sections.

SECTION "A" (40 Marks)

1. Short answer question (any five out of six) : [5 × 5 = 25]
 - a) Aims and Objectives of antenatal care
 - b) Puerperial pyrexia
 - c) Cord prolapse and its management
 - d) Genital prolapse
 - e) Vomiting in pregnancy
 - f) Intrauterine devices

2. Long answer question (any one out of two) : [1 × 15 = 15]
 - a) Define normal labour. Describe the stages of labour. Write management of first stage of labour.
 - b) Define placenta previa. What are the different degree of placenta Previa. Write management of second degree placenta previa.

61306

SECTION "B" (35 Marks)

3. Short answer question (**any four** out of five) : [4 × 5 = 20]
- a) Immediate care of newborn
 - b) Management of threatened abortion
 - c) Episiotomy
 - ✓ d) Oxytocic to be replaced by "OXYTOCIN"
 - e) Physiological changes during pregnancy
4. Long answer question (**any one** out of two) : [1 × 15 = 15]
- a) Define pregnancy induced hypertension. Enlist sign and symptoms of PIH. Discuss management of pre-eclampsia
 - b) Define Multiple pregnancy. Describe types of multiple pregnancy. Write the antenatal management in multiple pregnancy.

 - 5) Draw diagrams **wherever** necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answer book for all sections.

SECTION - "A" (40 Marks)

1. Short answer question (**any five out of six**) : [5 × 5 = 25]
 - a) Menstrual cycle.
 - b) Fetal Circulation.
 - c) Involution of uterus.
 - d) Birth Injuries.
 - e) Care of low birth weight baby.
 - f) Causes of antepartum haemorrhage.

2. Long answer question (**any one out of two**) : [1 × 15 = 15]
 - a) Write concept of the puerperium. Explain physiology of lactation. Discuss management of minor ailments in puerperium.
 - b) Mrs. Shyma, 50 years old G8P4A2 is admitted with genital prolapse and is posted for vaginal hysterectomy. Classify genital prolapse. Explain the etiological factors of genital prolapse. Discuss the post-op management and nursing care to be given to Mrs. Shyma.

SECTION - "B" (35 Marks)

3. Short answer question (**any four** out of **five**) : [4 × 5 = 20]
- a) Oligohydramnios.
 - b) Investigations for infertility in male.
 - c) Injection Oxytocin.
 - d) Ultrasonography in obstetrics.
 - e) Non-Stress test.
4. Long answer question (**any one** out of **two**) : [1 × 15 = 15]
- a) Define and classify hypertensive disorders in pregnancy. Discuss the clinical features of pre-eclampsia. Discuss the management of a primigravida woman with eclampsia in 37 weeks of gestation.
 - b) Define anemia and write causes of anemia in pregnancy. Explain the classification of anemia in pregnancy. Describe the management of woman with moderate anemia in pregnancy.

First P.B. B.Sc. Nursing Examination, Winter - 2020
MATERNAL NURSING

Total Duration : Section A+B = 3 Hours

Total Marks : 75

SECTION - A & SECTION - B

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.**
 - 3) **All questions are compulsory.**
 - 4) The number to the **right** indicates **full marks**.

Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.**
 - 7) **Use a common answerbook for all sections.**

SECTION - A (40 Marks)

1. Short answer question (any five out of six): **[5 × 5 = 25]**
- a) Abnormalities of puerperium
 - b) Structure and Functions of Placenta
 - c) Injection Oxytocin
 - d) Polyhydramnios
 - e) Medical Termination of Pregnancy
 - f) Characteristics of normal newborn

61306

2. Long answer question (any one out of two):

[1 × 15 = 15]

- a) Write concept of Pre-eclampsia.
Discuss HELLP Syndrome.
Explain the management of mother with pre-eclampsia.
- b) What is Ectopic pregnancy.
Describe clinical features of ectopic pregnancy
Write the management of ectopic pregnancy.

SECTION - B (35 Marks)

3. Short answer question (any four out of five):

[4 × 5 = 20]

- a) Complications of Preterm baby
- b) Causes of Maternal morbidity and mortality in India
- c) Classification of uterine prolapse
- d) Management of first stage of labour
- e) Cord prolapse

4. Long answer question (any one out of two):

[1 × 15 = 15]

- a) What are causes of hemorrhage in early pregnancy.
Write difference between abruptio placenta and placenta praevia.
Explain the management of placenta praevia at 37 weeks of gestation
- b) Write objectives of Antenatal care.
Explain diagnosis of pregnancy.
Discuss management of normal antenatal mother.

First P.B.B.Sc. Nursing Examination, Summer
(Phase - III : All Other Remaining UG/PG Courses) - 2020
MATERNAL NURSING

Total Duration : 3 Hours

Total Marks : 75

SECTION - A & SECTION - B

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All** questions are **compulsory**.
 - 4) The number to the **right** indicates **full** marks.

Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answer book for all sections.

SECTION - A (40 Marks)

1. Short answer question (any five out of six) : [5 × 5 = 25]
- a) Pre conceptional counselling.
 - b) Newborn assessment at birth.
 - c) Foetal Skull.
 - d) Episiotomy.
 - e) Minor ailments during puerperium.
 - f) Initiation of labour.

61306

2. Long answer question (any one out of two): [1 × 15 = 15]
- a) Define multiple pregnancy. Explain causes and complications of multiple pregnancy. Describe the management of woman with twin during labour.
 - b) Define contracted pelvis. Write diagnosis of contracted pelvis. Explain trial of labour in contracted pelvis.

SECTION - B (35 Marks)

3. Short answer question (any four out of five): [4 × 5 = 20]
- a) Injection Oxytocin.
 - b) Breast complications in puerperium.
 - c) Threatened abortion.
 - d) Copper-T.
 - e) Post-maturity.
4. Long answer question (any one out of two) : [1 × 15 = 15]
- a) Discuss classification of anaemia. Explain effects of anaemia on mother and fetus. Explain management of woman with severe anemia in third trimester of pregnancy.
 - b) Define the term infertility. Explain causes of infertility. Describe the management of female with infertility.

First P.B.B.Sc. NURSING Examination, Winter (Phase - III All Other Remaining UG/PG Course) - 2019
Maternal Nursing

Total Duration: Section A + B = 3 Hours

Total Marks : 75

SECTION - A & SECTION - B

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.

Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answerbook for all section.

SECTION - "A" (40 Marks)

1. Short answer question (**any five** out of six) : [5 × 5 = 25]
 - a) Contracted pelvis
 - b) Premature rupture of membrane
 - c) Safe motherhood initiative
 - d) Care of mother during first stage of labour
 - e) Management of cord prolapse
 - f) Care of low birth weight babies in labour room and nursery

2. Long answer question (**any one** out of two): [1 × 15 = 15]
 - a) Define the terms fertilization and implantation. Explain the spermatogenesis and oogenesis. Explain the importance of amniotic fluid and AFI.
 - b) Define contraception and list down contraceptive methods. Explain family welfare programme. Discuss permanent sterilization in male and female.

61306

SECTION - "B" (35 Marks)

3. Short answer questions (**any four** out of five) : **[4 × 5 = 20]**
- a) Injuries of maternal birth canal.
 - b) Breast engorgement and nursing care
 - c) Difference between classical caesarean section and lower segment caesarean section.
 - d) Advances in obstetrics and maternity care
 - e) Uterine fibroids
4. Long answer question (**any one** out of two) : **[1 × 15 = 15]**
- a) Mrs. Parveen, G4 P1 L0 A2, aged 38 years with 4 months amenorrhea admitted in an antenatal ward with history of PV spotting. Write her diagnosis and list down the causes. Write initial nursing assessment and medical management. Formulate nursing care plan for two priority nursing diagnosis for Mrs. Parveen.
 - b) Differentiate between placenta praevia and abruptio placenta. Discuss the management of placenta praevia. Discuss the complications of antepartum haemorrhage.

First P.B.B.Sc. Nursing Examination, Summer (Phase - II) 2019
MATERNAL NURSING

Total Duration : 3 Hours

Total Marks : 75

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All questions are compulsory.**

Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answer book for all sections.

SECTION - A (40 Marks)

1. Short answer questions (**any five** out of six) : [5 × 5 = 25]
 - a) Fetal circulation.
 - b) Antenatal care.
 - c) Causes of normal labour.
 - d) Jaundice in newborn.
 - e) Anemia in pregnancy.
 - f) Cord prolapse.

2. Long answer questions (**any one** out of two): [1 × 15 = 15]
 - a) Define Pregnancy Induced Hypertension(PIH), enumerate the signs and symptoms of PIH and explain the management of PIH.
 - b) Define multiple pregnancy. List down the complications of multiple gestation, describe the management of twin pregnancy.

61306

SECTION - B (35 Marks)

3. Short answer questions (any four out of five) : [4 × 5 = 20]

- a) Vacuum delivery.
- b) Types of Intra Uterine growth retardation.
- c) Analgesics used in obstetrics
- d) Ultrasonography in pregnancy.
- e) Advanced reproductive technologies used in Infertility.

4. Long answer questions (any one out of two) : [1 × 15 = 15]

- a) Define ectopic Pregnancy. List down the major sites of Ectopic gestation, describe the management of ectopic gestation.
- b) Define low birth weight babies. Explain the characteristics of LBW babies. Describe the management of LBW babies.

First P.B.B.Sc. Nursing Examination, Summer 2016
MATERNAL NURSING

Total Duration : Section A + B = 3 Hours

Total Marks : 75

SECTION – A & SECTION – B

- Instructions:**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All** questions are **compulsory**.
 - 4) The number to the **right** indicates **full** marks.
 - 5) Draw diagrams **wherever** necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answer book for **all** Sections.

SECTION – "A" (40 Marks)

1. Short answer questions (**any five** out of six) : (5×5=25)
 - a) Methods of placenta expulsion.
 - b) Essential care of new born.
 - c) Care of unmarried adolescent. *Female*
 - d) Methods of surgical induction of labor.
 - e) Mechanical methods of contraception.
 - f) Non stress test.
2. Long answer question (**any one** out of two) : (1×15=15)
 - a) Define Anemia. Discuss management of Iron deficiency anemia in pregnancy and labor.
 - b) Define Abortion. Enlist classification of Abortion. Discuss management of incomplete Abortion.

SECTION – "B" (35 Marks)

3. Short answer questions (**any four** out of five) : (4×5=20)
 - a) Legal aspects in MTP Act.
 - b) Methargine.
 - c) Care of Diabetic mother.
 - d) Care of second degree Perineal tear.
 - e) Intra uterine devices.
4. Long answer question (**any one** out of two) : (1×15=15)
 - a) Define normal labor. Enlist minor ailments of pregnant mother. Discuss management of Preterm labor.
 - b) Define Puerperium. Enlist obstretic emergencies. Discuss management of normal puerperium.

First P.B.B.Sc. Nursing, Winter 2015
Maternal Nursing

Total Duration: Section A+B = 3 Hours

Total Marks : 75

Section - A & Section - B

Instructions:

- 1) Use **blue/black** ball point pen only.
- 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
- 3) **All** questions are **compulsory**.
- 4) The number to the **right** indicates **full** marks.
- 5) Draw diagrams **wherever** necessary.
- 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
- 7) Use a common answerbook for **all** sections.

Section "A" (40 Marks)

1. Short answer question (**any five** out of six) : (5x5=25)
 - a) Biophysical profile
 - b) Minor ailments of pregnancy
 - c) Characteristics of normal newborn
 - d) Structure and functions of placenta
 - e) Difference between true and false labour pain
 - f) Management of anaemia in pregnancy.
2. Long answer question (**any one** out of two) : (1x15=15)
 - a) Define Normal Puerperium. What are the different types of lochia ? Explain in detail about the physiological changes during puerperium.
 - b) Define Hyperemesis gravidarum. Write down the etiology, clinical manifestations of hyperemesis gravidarum. Describe the nursing management of woman with hyperemesis gravidarum.

Section "B" (35 Marks)

3. Short answer question (**any four** out of five) : (4x5=20)
 - a) Difference between placenta previa and abruptio placenta
 - b) Antenatal advice
 - c) Injection Oxytocin
 - d) Prolonged labour
 - e) Episiotomy.

P.T.O.

4. Long answer question (any one out of two) :

(1x15=15)

- a) Define abortion. Write down the various types of abortion. Discuss in detail about septic abortion and its nursing management of woman with septic abortion.
- b) Define caesarean section. Explain the types and indications of caesarean section. Describe the pre-operative and post-operative care of patient undergoing Caesarean section.

Use a common answerbook for all questions

Question is out of 15 marks. Answer any one of the questions asked from any part of the question paper. Students should clearly write the stipules of each question. Do not write anything on the question paper.

4) The number to be written in the blank space is 15.

5) Draw diagrams wherever necessary.

6) Distribution of syllabus: 100% of the marks are to be obtained from the written examination.

7) Do not write anything on the question paper. Do not use any other material for writing.

8) Use blue ballpoint pen for writing.

Long answer question (any one out of two)

a) Define abortion. Write down the various types of abortion. Discuss in detail about septic abortion and its nursing management of woman with septic abortion.

b) Define caesarean section. Explain the types and indications of caesarean section. Describe the pre-operative and post-operative care of patient undergoing Caesarean section.

 - 7) Use a common answer book for **all** Section.

SECTION - A (40 Marks)

1. Short answer question (**any five** out of six) : **(5×5=25)**
 - a) Draw a well labelled diagram of female pelvis and describe its importance for labor.
 - b) Discuss complications of preterm baby.
 - c) Explain importance of amniotic fluid.
 - d) Describe types of lochia with composition of different types.
 - e) Discuss hyperemesis gravidarum.
 - f) Enlist minor ailments in pregnancy and discuss management of constipation.
2. Long answer question (**any one** out of two) : **(1×15=15)**
 - a) Define puerperium. Enumerate physiological changes during puerperium. Explain the post-natal management of primipara.
 - b) Define abortion. Describe the etiology of abortion. Explain the medical termination of pregnancy.

P.T.O.

SECTION - B (35 Marks)

3. Short answer question (any four out of five) : (4x5=20)

- ✓ a) Enlist abnormalities of the umbilical cord and discuss complications of true knot of cord.
- ✓ b) Explain role of ergot derivatives in management of labour.
- ✓ c) Explain fetal and maternal complications of polyhydramnios.
- d) Enlist cranial birth injuries in newborn and discuss management of a newborn with cephalhematoma during first 24 hours of birth.
- ✓ e) Describe objectives of antenatal care.

4. Long answer question (any one out of two) : (1x15=15)

- ✓ a) Define labour. Describe physiology of onset of labour and explain the events and management of woman in second stage of labour.
- ✓ b) Define iso-immunization. Explain the clinical manifestations of the haemolytic disease. Describe the antenatal and intranatal management of Rh-negative mother.

5. Short answer question (any five out of six) : (5x3=15)

- a) Draw a well labelled diagram of female pelvis and describe its importance for labour.
- b) Discuss complications of preterm baby.
- c) Explain importance of amniotic fluid.
- d) Describe types of lochia with composition of different types.
- e) Discuss hyperemesis gravidarum.
- f) Enlist minor ailments in pregnancy and discuss management of constipation.

6. Long answer question (any one out of two) : (1x15=15)

- a) Define puerperium. Enumerate physiological changes during puerperium. Explain the post-natal management of puerperia.
- b) Define abortion. Describe the aetiology of abortion. Explain the medical termination of pregnancy.

SECTION - B

2. Answer the following (any five out of six) :

(5×3=15)

- a) Episiotomy
- b) Inevitable abortion
- c) Oxytocics used in obstetrics
- d) Difference between cephalhaematoma and Caput succedenum
- e) Puerperal fever
- f) Minor ailments during pregnancy.

3. Answer the following (any three out of four) :

(3×5=15)

- a) Safe motherhood initiative
- b) Management of Cord Prolapse
- c) Care of preterm babies
- d) Management of traumatic postpartum haemorrhage.

P.T.O.

20. Breast feeding is always contraindicated with
a) Pregnancy
b) Mastitis
c) Inverted nipple
d) Herpes genitalis
21. Johnson's formula is used for
a) Calculation of expected date of confinement
b) Estimation of foetal weight
c) Estimation of uterine size
d) Daily foetal movement count
22. According to New York Heart Association classification, Grade II heart disease means
a) Slightly compromised
b) Markedly compromised
c) Severely compromised
d) Uncompromised
23. Amino acids are transferred through placenta by
a) Simple diffusion
b) Leakage
c) Active transport
d) Endocytosis
24. Greenish yellow colour of amniotic fluid is suggestive of
a) Foetal distress
b) Rh incompatibility
c) Post maturity
d) Haemorrhage
25. The protective covering of umbilical cord is
a) Covering epithelium
b) Wharton's jelly
c) Allantois
d) Embryonic coelom
26. Following are causes of oedema in pregnancy EXCEPT
a) Pre-eclampsia
b) Diabetes
c) Anaemia
d) Cardiac failure
27. The best time to do cervical encirclage is around
a) 10 wks
b) 14 wks
c) 18 wks
d) 20 wks
28. Vesicular fluid in hydatidi form mole is rich in
a) Human chorionic gonadotrophin
b) Oestrogen
c) Progesterone
d) Human chorionic somato mammatrophin
29. Vaginal examination is done immediately after rupture of membrane to rule out
a) Presentation
b) Presenting part
c) Cord prolapse
d) Bleeding
30. Treponema Pallidum enters the foetal circulation after
a) 20 wks
b) 22 wks
c) 24 wks
d) 28 wks
