

First P.B.B.Sc. Nursing Examination, Winter - 2022

CHILD HEALTH NURSING

Total Duration : 3 Hours

Total Marks : 75

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All questions are compulsory.**
 - 4) The number to the **right** indicates **full marks**.
 - 5) Draw diagrams **wherever** necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answer book for all sections.

SECTION - "A" (40 Marks)

1. Short answer question (any five out of six) : [5 × 5 = 25]
- a) Discuss the modern concepts of pediatric nursing.
 - b) Explain the various anatomical and physiological difference in children and adult.
 - c) Discuss problems associated with artificial feeding.
 - d) Baby friendly initiative hospital policy.
 - e) Dietary management of PEM.
 - f) Importance of play therapy for children.

2. Long answer question (any one out of two) : [1 × 15 = 15]

- a) Define infant mortality rate. Enlist the factors affecting infant mortality. What preventive measures can be taken to reduce infant mortality rate.
- b) Define low birth weight babies. classify them and discuss their care in detail.

SECTION - "B" (35 Marks)

3. Short answer question (any four out of five) : [4 × 5 = 20]

- a) Explain care of child with traction.
- b) Ophthalmia neonatorum.
- c) Juvenile delinquency.
- d) Jones criteria used for diagnosis of rheumatic fever.
- e) Ethical issues in pediatric care.

4. Long answer question (any one out of two) : [1 × 15 = 15]

- a) What are the causes of hydrocephalus? List the clinical features of hydrocephalus. List the pre and post operative nursing management of a child with hydrocephalus.
- b) Define Nephrotic syndrome. Explain the pathophysiology and clinical features. Discuss nursing management of nephrotic syndrome.

First P.B. B.Sc. Nursing Examination, (Phase - II) Summer - 2022
CHILD HEALTH NURSING

Total Duration : Section A + B = 3 Hours

Total Marks : 75

SECTION - A & SECTION - B

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All questions are compulsory.**
 - 4) The number to the **right** indicates **full marks**.
 - 5) Draw diagrams **wherever** necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answerbook for all sections.

SECTION "A" (40 Marks)

1. Short answer question (**any five** out of six) : [5 × 5 = 25]
 - a) Enlist causative factors of mental retardation
 - b) Explain management of a child with Thalassemia
 - c) Neonatal Resuscitation Algorithm
 - d) Describe modern concept of child care
 - e) Discuss medical management of a child with Tuberculosis
 - f) Explain care of a baby in incubator

2. Long answer questions (**any one** out of two) : [1 × 15 = 15]
 - a) Enlist behavioural problems of children and discuss any one in detail.
 - b) Define spina bifida, explain its type and discuss the management of meningocele.

SECTION "B" (35 Marks)

3. Short answer question (**any four** out of five) : **[4 × 5 = 20]**
- Difference between adult and child
 - Discuss surgical management of Hydrocephalus
 - Internationally accepted rights of the child
 - Management of a child with neonatal jaundice
 - Discuss Vitamin C in brief
4. Long answer questions (**any one** out of two) : **[1 × 15 = 15]**
- Define Acute Glomerulo nephritis. Discuss the pathophysiology & management of Acute glomerulo nephritis.
 - Define NICU. Describe the organization of neonatal unit. Discuss the measures to be taken for prevention & control of infection in NICU.

First P.B.B.Sc. Nursing Examination, (Phase - III) Winter - 2021
CHILD HEALTH NURSING

Total Duration : 3 Hours

Total Marks : 75

- Instructions :**
- 1) Use blue/black ball point pen only.
 - 2) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) All questions are compulsory.
 - 4) The number to the right indicates full marks.
 - 5) Draw diagrams wherever necessary,
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answer book for all sections.

SECTION "A" (40 Marks)

1. Short answer question (any five out of six) : [5 × 5 = 25]
 - a) Nurses responsibility in Exchange transfusion
 - b) Rickets in children
 - c) Nursing care of child with Iron deficiency Anaemia
 - d) Value of play for children
 - e) Care of baby in incubator
 - f) Nursing management of child with Tuberculosis

2. Long answer question (any one out of two) : [1 × 15 = 15]
 - a) i) Define Growth & Development [2]
 - ii) Enlist principles of Growth & Development [6]
 - iii) Explain factors affecting Growth & Development [7]

61307

- b) i) Define Hirschsprung's Disease [2]
- ii) Enlist clinical manifestations of Hirschsprung's Disease [5]
- iii) Discuss pre & post operative nursing care of child with Hirschsprung's Disease [8]

SECTION "B" (35 Marks)

3. Short answer question (**any four** out of five) : [4 × 5 = 20]

- a) Discuss child mortality & morbidity rates
- b) Tics in children
- c) Nursing care of child with neonatal sepsis
- d) Enlist advantages of breast feeding
- e) Integrated Child Development Services (ICDS)

4. Long answer question (**any one** out of two) : [1 × 15 = 15]

- a) i) Define Low Birth Weight [2]
- ii) Enlist characteristics of preterm baby [5]
- iii) Discuss management of Low Birth Weight baby [8]
- b) A 6 year old child is brought to the hospital with the complaints of edema, oliguria , hematuria and was diagnosed with Acute Glomerulonephritis
- i) Define Acute Glomerulonephritis [2]
- ii) Enlist clinical manifestations for Acute Glomerulonephritis [3]
- iii) Discuss medical management for Acute Glomerulonephritis [4]
- iv) Enlist nursing diagnosis for the child and write nursing care plan for two priority nursing diagnosis [6]

First P.B.B.Sc. Nursing Examination, Summer - 2021
CHILD HEALTH NURSING

Total Duration : 3 Hours

Total Marks : 75

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.

Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answer book for all sections.

SECTION - "A" (40 Marks)

1. Short answer question (**any five** out of six) : [5 × 5 = 25]
 - a) Nursing management of child with Nephrotic Syndrome.
 - b) Classify Protein Energy Malnutrition.
 - c) Enumerate normal characteristics of the neonate.
 - d) Nurses responsibility in administration of oral medication.
 - e) Enuresis.
 - f) Value of Play in development of child.

2. Long answer question (**any one** out of two) : [1 × 15 = 15]
 - a) A 4 Year old child is admitted in paediatric ward with fever, tachypnea, cyanosis and diagnosed as Pneumonia
 - i) Define Pneumonia.
 - ii) Classification of Pneumonia.
 - iii) Enlist clinical manifestations of Pneumonia.
 - iv) Write down nursing management of child with Pneumonia.

- b) i) Define Growth and Development.
- ii) Enlist factors affecting Growth and Development.
- iii) Discuss Principles of Growth and Development.

SECTION - "B" (35 Marks)

3. Short answer question (**any four** out of **five**) : [4 × 5 = 20]

- a) Neonatal resuscitation.
- b) Nursing care of hospitalized child.
- c) Restraints used in children.
- d) Explain the types of Tracheo-esophageal Fistula.
- e) Juvenile delinquency.

4. Long answer question (**any one** out of **two**) : [1 × 15 = 15]

- a) Master Raju admitted in NICU and diagnosed as a case of Ventricular Septal Defect
 - i) Classify Congenital Heart Defect.
 - ii) Discuss surgical management for Ventricular Septal Defect.
 - iii) Enlist post operative nursing diagnosis for Master Raju and write nursing care plan for two priority nursing diagnosis.
- b) Ms. Preeti was brought to hospital due to lack of voluntary muscle control and was diagnosed as Cerebral Palsy.
 - i) Define Cerebral Palsy.
 - ii) Explain types of Cerebral Palsy.
 - iii) Discuss nursing management for Ms. Preeti.

- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All** questions are **compulsory**.
 - 4) The number to the **right** indicates **full** marks.
 - 5) Draw diagrams **wherever** necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answerbook for **all** Sections.

SECTION – A (40 Marks)

1. Short answer question (**any five** out of six) : **(5x5=25)**
 - a) Differences between adult and child.
 - b) Nursing care of child with Scabies.
 - c) Speech defects in children.
 - d) Characteristics of Normal Newborn.
 - e) Classify Congenital Heart Diseases.
 - f) Advantages of Breast feeding.

2. Long answer question (**any one** out of two) : **(1x15=15)**
 - a) i) Define Hydrocephalus. **2**
 - ii) Enlist clinical manifestations of Hydrocephalus. **3**
 - iii) List down surgical management for Hydrocephalus. **3**
 - iv) Discuss post-operative Nursing management of child with Hydrocephalus. **7**

P.T.O.

61307

- | | |
|--|---|
| b) i) Define Growth and Development. | 2 |
| ii) Enlist principles of Growth and Development. | 6 |
| iii) Enumerate factors affecting Growth and Development. | 7 |

SECTION – B (35 Marks)

3. Short answer question (**any four** out of five) : **(4x5=20)**

- a) Nursing management of child with Tuberculosis.
- b) Nurses responsibility in Lumbar puncture.
- c) Nurses role in selection of play materials for children.
- d) Child labour.
- e) Nursing care of child with neonatal sepsis.

4. Long answer question (**any one** out of two) : **(1x15=15)**

- a) Ms. Sita, 3 Year old child is admitted in the hospital with weight gain, decreased urine output, fatigue and is diagnosed with Nephrotic Syndrome
 - i) Define Nephrotic Syndrome. 2
 - ii) Discuss Pathophysiology of Nephrotic Syndrome. 5
 - iii) List down nursing diagnosis for Ms. Sita and write nursing care plan for two priority nursing diagnosis. 8
- b) Master Rohit 6 months old was brought to hospital due to weakness, shortness of breath, poor sucking and was diagnosed with Anemia.
 - i) Define Anemia. 2
 - ii) Classify Anemia. 3
 - iii) Enlist clinical manifestations of Anemia. 5
 - iv) Discuss nursing management for Master Rohit. 5

SECTION - C

Attempt any two LAQs out of three (Q. No. 4, 5 and 6) :

4. a) Define pyloric stenosis. 2
 b) Explain the clinical features and pathophysiology. 4
 c) Discuss the pre and post operative management of an infant admitted to the paediatric ward with this diagnosis. 9
(1×15=15)
5. a) Define 'low birth weight' infant. 1
 b) Explain the physiological handicaps of a low birth weight infant. 6
 c) Discuss the nursing management and care of a low birth weight infant admitted to the NICU. 8
(1×15=15)
6. Satisfy a 5 yr. old boy is admitted to the paediatric ward with the diagnosis of nephrotic syndrome.
 a) Define nephrotic syndrome. 2
 b) Explain the pathophysiology of this disease. 4
 c) Discuss the management of this child in the hospital. 9
(1×15=15)

**First P.B. B.Sc. Nursing Examination, November/December 2010
CHILD HEALTH NURSING**

Total Duration: Section A + B + C = 3 Hours

Section B & C Marks: 60

SECTION – B & SECTION – C

Instructions: 1) All questions are compulsory.

2) The number to the right indicates full marks.

3) Draw diagrams wherever necessary.

4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION – B

2. Answer the following (any five out of six) (5×3=15)
- Initial management of protocol of infant between 0-2 month as per IMNCI.
 - Signs of good attachment in breast feeding.
 - Immunization schedule.
 - Complication of vitamin A deficiency
 - Pathophysiology of nephrotic syndrome.
 - Discuss the care of child with VP shunt.
3. Answer the following (any three out of four) : (3×5=15)
- Clinical manifestation of child with Protein-Energy Malnutrition.
 - Kangaroo Mother Care.
 - Under five clinic
 - Types of poliomyelitis.

SECTION – C

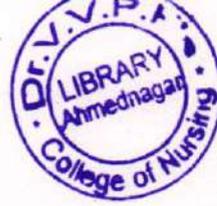

Solve any two LAQ question out of the following (Q. No. 4, 5 and 6)

4. Master Ankit, 8 months old child is admitted in a Pediatric ward with complaint of loose, watery stool 5-6 time. On assessment the child was classified under severe dyhydration.
- Differentiate between diarrhoea and persistent diarrhoea. 2
 - Discuss the assessment of dehydration. 5
 - Enumerate the problems of infant with severe dehydration and discuss any two priority need in detail. 8

61307

5. Two year old child is admitted to pediatric intensive care unit with respiratory distress.
- a) Enumerate the sign of respiratory distress. 2
 - b) Enlist the causative agents of bronchopneumonia. 4
 - c) Discuss the nursing management of any two nursing problem. 9
6. A low birth weight infant was brought of NICU. On assessment the child was found to be preterm.
- a) Discuss the types of low birth weight infants. 2
 - b) Discuss the physical characteristic of preterm infant. 5
 - c) Discuss the physiological handicap and management of preterm in NICU. 8

First P.B.B.Sc. Nursing Examination, Nov./Dec. 2009
CHILD HEALTH NURSING

Total Duration : Section A + B + C = 3 Hours

Section B & C Marks: 60
