### **Health facilities**

The institute's teaching hospital is a modern 800-bed facility that offers extensive clinical exposure for students. It features 11 operation theatres, 28 wards, a central clinical laboratory, a fully functional blood bank, and a well-equipped casualty unit. A range of super-specialty services—including oncology, radiotherapy, cardiac catheterization, joint replacement, organ transplant, and IVF—provides students with first-hand experience in advanced medical care. Critical care needs are met through specialized ICUs for medical, surgical, neonatal, paediatric, respiratory, and cardiac patients.

State-of-the-art diagnostic and treatment technologies further strengthen clinical training. Key facilities include a GE 1.5 Tesla MRI, CT scan, and 800 MA X-ray with image intensifier, ultrasonography, colour Doppler, digital mammography, a catheterization lab, dialysis units, ventilators, and PET-supported radiation therapy.

Students gain broad exposure through rotations in nephrology, cardiology, dermatology, ENT, ophthalmology, obstetrics and gynaecology, and orthopaedic joint replacement. Additional learning opportunities are provided through DOTS, ICTC, physiotherapy, and the AYUSH outpatient department. Bedside teaching by experienced faculty and clinical staff enriches practical learning.

The hospital's NABL-accredited laboratories—including automated biochemistry, pathology, immunoassay, and semi-automated microbiology labs—offer robust diagnostic support. Together, these facilities cultivate strong clinical competencies and professional excellence.

## **List of Facilities available for Patient care & Teaching learning & Research**

### **Hospital has following facilities for patient care**

#### **Patient care for outpatients**

- Central services for outpatient department
- EEG / ECG
- Emergency patient care
- Blood investigations
- Radiological facilities such as,  
(6 Static X Ray Units , Mobile X Ray Units, mammography, Ultrasound, colour Doppler, Digital subtr, Angio, 16 slice cardiac CT, 11.5 tesla MRI )
- Specialty Clinics
- Ambulance service
- Blood bank services
- Pharmacy at subsidiary rates – 24 hrs service
- Free pick up & drop facility

#### **Patient care for in patients**

- Central services for outpatient department
- Free admission
- Free meals for patients
- Government schemes
- Well-equipped OT Theatres
- Central Sterile Supplies Department (CSSD)
- Radiological investigations at a subsidiary rate
- Ambulance service
- Blood bank services
- Pharmacy at subsidiary rates – 24 hrs service
- ICU charges at subsidiary rates
- Oxygen generation plant
- Electronic Data Processing - Networking and Local Intranet
- Central Laundry
- Central Kitchen & Canteen
- Central store
- Maintenance department
- Mortuary

#### **Facilities for teaching learning & Research:**

- A well-equipped 800- bed hospital with outpatient wings

- Intensive care units (MICU, SICU, PICU ,RICU & Burn ICU)
- Casualty and emergency ward.
- Radio-diagnostics including CT, MRI, digital X-ray and Mammography
- Medical Education unit
- Skills training lab
- IVF centre

**Following super specialty exposure is also available to the UG &PG students:**

- Cath lab and cardiac centre
- Joint replacement centre
- Oncology
- Dialysis
- IVF- in vitro fertilization centre
- Transplant centre
- PET Scan
- RT-PCR.
- Nuclear medicine centre

Hospital has 11 functional OTs they are assigned to various departments as follows.

S.N	Department	No of OTs
1	Surgery	04
2	Obstetrics and Gynaecology	1+1
3	Orthopaedics	02
4	Ophthalmology	01
5	Nuero, Transplant	01
6	CVTS	01

**Department wise distribution as follows:**

<b>S.N</b>	<b>Type of teaching Bed</b>	<b>Department</b>	<b>No. of bed</b>
1	Dr. Vikhe Patil memorial hospital	Medicine	220
		Obst. /Gynec.	100
		Surgery	150
		Paediatrics and Neonatology	100
		Orthopaedics	90
		Ophthalmology	60
		ENT	30
		Psychiatry	20
		Dermatology	30
Total			800
